## **In Our Prayers**

**Louise Melton's daughter, Vicki**, who had knee surgery recently, was having some problems after her surgery.

**Ginny Ragsdale** got two pints of blood this week when she went to the doctor and is doing okay.

**Hazel Wright** came home from the hospital last week but had to go back Tuesday because she was having trouble breathing. She is scheduled for valve replacement surgery next Tuesday but they may be able to move it up. They are requesting no phone calls right now.

**Arleane Morehead** went to her doctor this week and was told she is doing okay after her hip surgery. She has had some swelling in her leg and foot but he said this should go away. She will start home therapy soon.

**Fran Doyle** says she is feeling better and doing okay. She has a follow up doctor appointment on Friday and is hoping for a good report.

**Jackie Harper** is better but still not completely well. She has upcoming appointments with her oncologist and her primary care doctors next week.

**Phil Chatman** is recuperating well after his surgery.
